BOMBARDMENTS RAISE TOLL OF DEAD IN CHINA

3,000 Killed, 5,000
Wounded in 12 Suc-
cessive Days

ABOUT CANTON

Shanghai, June 8.—Casualties in recent fighting in central China have raised the Japanese total to well past 300,000 and the Chinese to more than 1,000,000, foreign military authorities estimated today.

These estimates, based on un-discovered sources of information, said Japanese had lost 32,000 killed between April 1 and May 22, including fighting about Tairchung, Suichow and Lin in Shanghai province.

Washington, June 8.—(AP)—The American government protested to the Japanese consul general at Hong Kong today against the bombing of Japanese airplanes of the campus of the American-endowed Lingnan university at Canton.

The state department said this country's protest was delivered to the Japanese official by Addison E. Southard, United States consul general at Hong Kong.

The department said Southard called that three Japanese bombs fell on the western end of the campus at the edge of the athletic field 200 yards from houses occupied by Americans.

No buildings were struck. Partly Owned By Americans. In protesting to the Japanese consul general, Southard pointed out, the department said that the property was partly owned by Americans as well as the direct American participation in the institution's financial support and administration.

The Lingnan university is jointly owned by Chinese and American missionary societies. The bombs which fell on the campus were some of hundreds of Japanese missiles which have showered Canton with death and property destruction during the last twelve days.

The university is directed by an interdenominational board of trustees in New York City, the majority of whose members are American.

Secretary of State Hull said at his press conference he was not yet ready to give his reply to a British invitation to join in an international investigation into the bombing of civilians in Spain.

Aged Veterans of Civil War Attending State Encampment

By RUSSELL C. LANDSTROM
Aurora, Ill., June 8.—(AP)—A small band of scarcely two dozen grand army men, yet representing in the total of its ages, nearly 2,000 years of human experience, paraded into another year of Illinois chronicles today.

Although the veterans rode in automobiles, some of them against their proud wishes, the scene was not robbed of the old magic. Much in the past, when the men in blue marched always and saluted smartly, the G. A. R. division suggested a panel in a moving historical panorama.

MANSLAUGHTER CASE NEARING END AT PEKIN

Last of the Defense
Witnesses Testify
Today

Pekin, Ill., June 8.—(AP)—A defense attempt to inject a discussion of narcotic impregnated cigarettes into the manslaughter trial of James W. Crabb failed today when Judge Joseph E. Daily ruled the chain of evidence was incomplete.

The defense, had placed Dr. B. H. Gradwohl, head of the research department of the St. Louis police department, on the stand in an effort to get before the jury evidence that narcotic cigarettes had been found in Betty Collison Crabb's handbag.

The handbag was found in a room adjacent to the one in which she was fatally wounded March 1 in the home of Willis Crabb, her banker father-in-law, at Delavan, Ill.

The state objected successfully to Gradwohl's testimony. The defense then placed several witnesses on the stand to identify the bag and definitely trace its source in the case.

Daniel Crabb, a brother of the defendant, his step-mother Catherine, and his mother, Mrs. Elizabeth Crabb, all testified the bag was Betty's and that it had been found in her dressing room. However, they testified that at the time of finding it contained half a package of cigarettes or "9 or 10." They testified it had been given to the girl's father, Louis Glenn Collison for a time and that later it contained only one cigarette.

Rules Against Defense. Judge Daily dismissed the jury and listened to a long, acrimonious argument by attorneys concerning

The Chief's Peeved; Somebody Tried to Get Ticket "Fixed"

"We want the public to know that the police department is making an honest-to-goodness effort to reduce accidents in Kankakee," declared Chief of Police L. B. Rogers this morning in a statement on "fixing" traffic tickets.

"Some people still have the idea they can get their traffic tickets 'fixed' by seeing certain influential people in town, but this is not true. Any motorist brought into police court and found guilty of the offense as charged is assessed a fine. 'Only in this way can we hope to cope with the problem of accident prevention. The majority of the citizens want the traffic laws enforced. We are trying to give them what they want," the chief said.

Yesterday Everett Hall of Ashkum was fined \$25 for speeding and Elton Holmes of route 2, Kankakee, was assessed \$62.50 on a similar charge this morning.

One witness testified, C. J. Bacon of 565 East Water street, who saw the body floating and helped recover it.

The body was buried in Mound Grove cemetery several days ago.

Warns Merchants of New Ad Racket

Merchants were advised today by Chief of Police L. B. Rogers that his department has no connection with any police magazine and does not endorse one under any consideration.

Boulevard for such publications have been reported in this region and are attempting to arrange a connection, however remote, with local police departments. The better business bureau of the chamber of commerce and the chief have checked into their activities and find that the money collected goes for two sources only, the salaries of the promoters and payment of the bill for printing the magazine.

A suit to foreclose a mechanic's lien on 20 acres of land and accompanying buildings east of Momen, supposed to be owned by Joe Louis, colored heavyweight champion pugilist, was filed for the circuit court today.

The suit is by James Stewart of Crown Point against Pearl and Henry Young, owners of record of the farm.

Stewart's complaint, filed by Attorney Ben Gower, claims that two years ago he entered into a verbal contract with the Youngs to construct a swimming pool, pump house and shower rooms on the property, as well as to make repairs on existing buildings.

For the swimming pool, he claims, he was to receive \$2,500 and for the additional work he was to be paid as the work progressed.

BELCHING PEAK NEAR SOUTHERN TIP OF ISLAND

Continuous Rumble
Spreading Fear
Among Natives

1814 DISASTER

Manila, June 8.—(AP)—Authorities tried vainly today to calm thousands of terrified natives within sight of belching Mayon volcano whose periodic eruptions frightened one man to death and drove another insane.

People in the region near the southern tip of Luzon island became more excited hourly as the volcano rumbled almost continuously and erupted at intervals of about three hours.

Panic spread when the volcano blew off this afternoon, throwing up a great pillar of smoke and vapor and hurling vast quantities of incandescent rock into the sky.

Fear of disease in epidemic proportions in the refuge camp at Nuyda added to the worries of authorities. Doctors reported drinking water there was unsafe.

Sees No Danger. The Rev. Miguel Selga, director of the government weather bureau in Manila, said no amount of assurance would make the people stay in their homes even when their houses were in no danger.

He said the volcano showed no indications of diminishing or increasing its periodic outbursts.

The six-day eruption of the 7,500-foot peak mounted in intensity this morning raising fear that the climax of the volcano's activity was yet to come.

More than 16,000 villagers of the area 200 miles southeast of Manila have vacated their homes and sought safety from the lava flow from the volcano which caused the death of 1200 people in an eruption in 1814.

GOALS, GANTS, GREEN WARFARE

Bradley Wins On Chartier's Hitless Game

Schmeling At Life's Peak, Tunney Thinks Chicago Team Increases Lead With First Win

BRADLEY WINS ON CHARTIER'S HITLESS GAME

Pounding out 20 hits for a total of 17 runs, Bradley M. E. won his fourth straight Chicago Cubs league game in the race for the Republic-News trophy on Tuesday night as the lights were flashed over the field for the first time this season.

A letter today from Danny Blazevich, the St. Vlasov athlete great from DeKalb, who finished off the collegiate career this year, says he would like to take time out here and thank you for the swell things you said about me the last four years. You sure were a pal—and I mean it!

It's cheering to receive such an appreciative note once in a while, and notes such as the aforementioned come along only from boys like Blazevich, who are sure things in the race for success. Through college Blazevich was always the first to be picked in the Chicago league, and there, and always the last to utter a complaint if printer's ink was hurried about him, in criticism.

Like even on the basketball and football team—he was the first to be picked in the Chicago league this season. Only 21 batters faced Chartier as he fanned 15 and allowed two passes. Besides the two reaching first on passes, only one other man touched the initial sack and that was on an error.

Book, Eby Lead Hitters

J. Book and Eby led the Bradley hitters with three safeties apiece, while Book and Chartier each socked a home run with a pair of mates aboard. This win, coupled with the Greeks loss at the hands of the Lutheran, gave Bradley undisputed leadership in the league. First Methodist of Kankakee racked up the other win in last night's games, kicking St. John Evangelical, 12 to 1. Methodist's circuit smash for the winners was the leading blow in a game packed with slug-outs. It was the second win for the Methodist in a week, having whipped Immanuel Baptist by a 10 to 2 score in the playing off of the second game last Friday.

GERMAN LOOKS IMPRESSIVE IN CAMP WORKOUT

Speculator N. Y. June 8.—It is difficult to find a time when a player is in a rash of predictions about what Max Schmeling will do to Joe Louis. Two weeks from tonight in the Yankee stadium.

The German's confidence is so contagious he is so dead certain he will stop the Negro champion, that you begin wondering if all those people are buying \$20 tickets to watch it happen.

Max in Super Shape

The man who intends to make history by becoming the heavyweight title is as usual in superb condition. Gene Tunney, a visitor to the camp yesterday, said he reached his life's peak of skill and physical fitness.

Max's sparring partners took brutal punishment yesterday, even though their loss obviously was for the sake of the fight. Tunney said "old" and "silly" Max with no apparent effort sent his partners tottering from the ring. His left still is loved too much. Besides the two reaching first on passes, only one other man touched the initial sack and that was on an error.

Joe Looks Listless

"Pompton Lakes, N. J. June 8.—Ex-Champion James J. Braddock, who won the title by knocking out Max Schmeling in the eighth round, looked listless in his sparring yesterday. He said: "You'll see a different fighter by the time next week. He's not burning up any unnecessary energy and when he's ready he'll be open up. He worked the same way for our fight but there's no denying he had everything going on."

SPANISH REBEL FORCES CLAIM A BIG ADVANCE

Main Defense Lines of Loyalists on Coastal Sector GUARD VALENCIA

London, June 8.—(AP)—Viscount Halifax, British foreign secretary, today sought an effective way to end repeated air bombardments of Spanish shipping in government Spanish waters.

Lord Halifax' unexpected return to the foreign office during the Whitsun recess of parliament coincided with the bombing of Gandia, a British-operated Spanish port, 36 miles south of Valencia, early today.

This attack by Spanish insurgent airplanes raised to twelve the number of foreign ships sunk or damaged by insurgent air bombs in Spanish harbors within the past two weeks. A British dredger was hit and disabled at Gandia.

Hendaye, France.—(At the Spanish Frontier)—June 8.—(AP)—Insurgents fought their way to the Spanish government's main defense lines guarding Valencia today while bursting bombs from night air raids on Barcelona, Valencia and Alicante added to yesterday's hundreds of casualties.

Heavy reinforcements, backed by hundreds of patrolling planes and massed artillery, were thrown into the battle on the coastal sector and forced the strong government outposts about Albocacer to retire to prepared defense lines.

The government militia held fast in these lines, however, and made frequent counter-attacks, striking heavy blows at the relatively unprotected insurgents who clung to trenches hastily dug for the night.

The insurgent capture of the village of Adaneta, but 18 miles northwest of the important coastal city of Castellon de La Plana and almost the same distance south of Albocacer, brought Generalissimo Franco's shock troops squarely up against the government's main line which follows the fall of high land from Albocacer to Mora de Rubielos.

"War of Pockets"

The insurgents now have access to three river valleys—the Villahermosa on the west near Mora de Rubielos, the Lucena in the middle, and the Rambla de La Vidua, "the River of the Widow," on the east, flowing into the Mediterranean just south of Castellon—giving them an opportunity to wage a "war of pockets."

While Franco's Spanish, Moorish and Italian divisions aimed at Lucena Del Old and the encircling of Albocacer and Mora de Rubielos as their immediate objectives, his big air bombers hammered mercilessly at Barcelona, Valencia and Alicante.

Alicante was visited for the third time in 24 hours late yesterday afternoon, bringing the town's incomplete casualty list to 53 killed and 170 injured.

Valencia received its last attack yesterday. At least 42 were dead there.

Figueras Junction Bombed

Perpignan, France.—(At the Spanish Frontier), June 8.—(AP)—A squadron of Spanish insurgent bombing planes today bombed Figueras, junction of the main seaboard railway and the motor highway from France about 20 miles inside Spanish government territory.

Dispatches from Barcelona said 40 persons were killed and 60 wounded and 30 houses destroyed at Figueras.

Bombs apparently aimed at the railway hit a hospital, the city hall

and other buildings in the heart of the city.

Figueras officials telephoned Perpignan that many of the seriously wounded could not be cared for there and asked permission to rush them into Perpignan for emergency treatment.

Spanish government anti-aircraft batteries opened fire on the raiders but the planes apparently escaped damage.

British Dredger Sunk

Gandia, Spain, June 8.—(AP)—A lone seaplane bombed and machine-gunned this British-operated port on government Spain's Mediterranean coast in a moonlight raid early today, damaging a British dredger so seriously that she sank a few hours later.

The harbor at Gandia, 36 miles south of Valencia, is a small, modern port, owned by a British company.

The plane, believed to be the same one which bombed two British ships in Alicante harbor yesterday, dropped about thirty bombs, five of them hitting the dredger.

Twenty railway cars and a warehouse were destroyed and another warehouse was damaged. The warehouses were machine-gunned, but there were no casualties.

GO WEST, YOUNG WOMEN

Amarillo, Tex.—(AP)—Gene Howe, Amarillo editor, says women of the high plains country have more beautiful legs than women elsewhere. It is because the women of the plains have to brace themselves against high winds, Howe said, and this exercises the muscles of the legs which makes for beauty. "So come west, young women," Howe advises.

Women of World Getting Fatter Says Britisher

London, June 8.—(INS)—Women of the world, including those of the United States, are getting fatter in the most conspicuous places. It was asserted today on the authority of Frederick R. Burley, English "wizard of the waistlines."

Returning to England from a world tour, corsetiere Burley said that six months of traveling research, hundreds of undress examinations, parades, scrutiny of million female outline statistics, have given him proof that busts have increased by two inches and waistlines by three inches.

"I've been to the United States, Canada, New Zealand, Australia and Africa," Burley said. "Everywhere it is the same. Women are letting their figures slide. They continue to spend fortunes on their faces, but their figures..."

"Five years ago I took the same trip. What a difference today. Everywhere my agents and associate companies have the same story to tell. Bigger seats and fatter busts. And to make it more obvious they are taking to trousers."

"Venus de Milo has few competitors today. She is still the ideal woman. In the Victorian days women were throwing convention—and slimsness—to the winds."

Burley condemned high heels as "a curse."

"When a woman tilts up her body on an artificial pedestal she sticks out in the wrong places. Internally she does herself terrible harm. Find me a woman of forty who hasn't had one abdominal operation."

"Soon there will be a revolutionary movement. Women will have to be slim. But the eighteen-inch waists have gone forever."

Comparing women the world over, Burley characterized American girls as good looking and dressers, taller than the women of most countries, but a bit standardized in looks and dress.

He awarded Australian and South African girls first place for physical perfection. "Better food and sun do that for them."

Rheumatism and Neuritis Yield to Hoyt's Compound

Custer Park Resident Says He Can't Express Enough Gratitude for the Relief He Has Had.

Mr. Ernest Trill, Custer Park, Ill., now adds his name to the ever growing list of local people who have found lasting relief from Hoyt's Compound after everything else failed. Mr. Trill states: I had

MR. ERNEST TRILL

suffered terribly in the past 5 years from rheumatism and neuritis all through my body, and my friends will verify that the statement I am making is true, for they know how I have complained of the misery I had been in, especially during the husking season. My arms and hands would ache and pain constantly and my shoulders would become stiff and the muscles of my back would get very sore. Night after night my wife has had to prop me up in bed so that I could get enough ease to rest. I have had to hang my arm over the side of the bed and keep it in motion to ease the pain from my shoulder down. My hands were subject to swelling and felt as they were getting numb or going to sleep. When I would sit down for any length of time I would become stiff to that position, then when I would get up my legs would pain terribly. Since husking time I had spent over thirty dollars trying to find something to stop my misery and to stop the terrible rheumatism.

Only after taking Hoyt's Compound have I been relieved, and speaking from experience I have never taken anything that has done what this compound has, for I no longer suffer the aches and pain and I can go to bed now and sleep without the misery keeping me awake and my entire system has changed. I can not express how thankful I am that I took the advice of others nor can I express enough gratitude to the manufacturers of Hoyt's Compound for I have never in my life taken medicine to do so much as Hoyt's Compound.

Hoyt's Compound is sold and recommended by the I. C. Pharmacy, 200 South East Ave., Kankakee, and by all leading druggists everywhere. Be sure to get genuine Hoyt's Compound. Accept no substitutes.—Adv.
